

An update on Hythe Aqua Water Polo success

recently: Oct 2018

The Men's senior team playing with Folkestone Mens competing under the "Shepway" Club have retained the Men's Kent League Title, 2 years consecutively and hopefully again they are training to retain the Kent League Cup (Norman Beadle), which will be played in Jan/Feb.

Hythe senior men's/junior boys and girls players as individuals have had great success recently being asked to represent nationally, regional and county levels teams. This shows the level that our men's/junior players are capable of playing at and are able to maintain to mention a few, Lucy-Mai Helliwell, James Croud, Tom Broadbridge, Rico Newman-Morgan, Callum Bailey, Simon Farrow and William Cavanagh.

Our senior mens and some junior boys/girls are still continually representing club teams at the highest divisions of Water Polo in the National League and are making important and vital plays within the teams, proving the calibre of not only Kent Polo but also the South East region.

The Water Polo Coach is very pleased and proud of how well the Club younger members are doing, especially when competing at the highest standards. All our juniors that train in our senior training squads, all train with such dedication and enthusiasm for learning and improving. Its a pleasure to be coaching them.

I am sure our Junior WP Section will be able to provide some great news on our very young polo players, who have entered a tough league (London League). We wish them every success.
